Tournament Guidelines

Rules

- 1) All games played will be governed by the 2021-2022 NCBBA-W rulebook.
- 2) Seeding for the single elimination round will be determined using the Pool Standing Tiebreakers.

The following criteria will be used to determine pool standing:

- The first criterion for determining pool standing is pool-play winning percentage.
- Two Team Tiebreaker
 1. In any situation where two teams are tied, head-to-head competition between the teams shall determine the winner.
- Three Team Tiebreaker
 1. If more than two teams are tied, a point differential tie breaker will be applied. The point differentials of the teams involved in the tie are totaled. Teams are then ranked according to the sum of the point differential and the team with the highest positive differential is determined the pool play winner.
 - *In the event of a three-way tie, should this point differential tiebreaker eliminate one team, and leave the other two teams tied, then the head to head result of the remaining two teams will determine the pool champion.*
 2. If more than two teams are still tied after the application of the point differential formula, the higher seed is rewarded to the team with the fewest combined points scored against them.
 - *In the event of a three-way tie, should this points allowed tiebreaker eliminate one team, and leave the other two teams tied, then the head to head result of the remaining two teams will determine the pool champion.*
 3. If more than two teams are still tied after the application of Step Two, a three-way flip of the coin shall break the tie, with the odd team being declared the pool winner. The tie between the two remaining teams shall be broken based on the results of their head-to-head competition.
